

# Headshot Packages

Sophie Gabrielle Photography

Modelling x Acting x Corporate x Personal

## What's Involved

---

To create the best experience and headshot for our photoshoot a few things are to be prepared and discussed before we go ahead.

### **Studio or natural/outdoor environment (or both)?**

If you have some sample images you like please send them through to me, the more the merrier.

### **How Long?**

Shooting time usually run from 45 minutes to 2 hours depending on the range of images you are after and how technical each image us. They can be extended if more looks are required.

### **What will you bring/wear?**

Simple attire works best in a headshot as it does not take away from face. I recommend bringing 2-3 outfits with basic colours eg: Black, grey and white. Necklines are an important thing to consider - rounded necklines and button up shirts work best.

### **Hair and Makeup**

Hair and Makeup is not included in the packages, however I am happy to recommend or even organise someone for you with additional cost.

## Studio Photoshoots

---

My studio location is in Southbank in the Melbourne CBD. It is easily accessed by both car and public transport - About a 5 minute walk from Flinders St Station.

I will need 2 weeks notice to book your session in the studio.

Weekday times 10 - 9pm

Weekend times 10- 5pm

## Environmental / Outdoor

---

After discussing the look and feel of your image, I will advise you on the chosen location for the image to reflect either industrial, green and leafy or cityscape ect.

On location I use natural light but do supply both a speedlight and portable studio flash to balance out shadows and background.

Please be advised that shoots may be postponed due to weather.
